Art Therapy

Art Therapy aims to promote the healing process of people with physical and mental health problems or disabilities. Throughout the process the clients identity and autonomy are actively strengthened through a creative approach.

Target Groups

Art Therapy is particularly useful for clients with verbal communication difficulties, dyslexia, behavioural and social problems, autism, ADHD, developmental delays and people who have experienced any kind of trauma, including domestic violence, war and accidents.

Bookings

Through consultation, our Art Therapy program is individually tailored to suite the needs of our clients, groups and families.

Drop-In Sessions for children

Weekly one-off workshops offer children the possibility to explore their creativity in different media and themes.

Times: Saturday 14:00 - 15:00

Costs: € 10

Continuous Professional Development

joyn provides CPD for people in Health Care, Youth Work and Education. The program includes Art Therapy Methods in different settings and self-exploration through artistic media. Workshop times will be announced.
